Le-Amen: A brief history

Le-Amen Education Centre has been a part of South African education for over 23 years. **Le-Amen** has challenged every traditional and conventional practice in education in our country and become known for trend-setting assessment and guidelines in the distance education market. Their academic success is proven.

Le-Amen is a trail-blazer in innovative and forward-thinking education. **Le-Amen** offers every student the opportunity to excel and every student is acknowledged for who they are and for the potential they have. The child-centred approach is inherent and at the core of **Le-Amen**. This is the foundation and the basis of the School. Le-Amen has always been known for their ongoing commitment to sound education that enables learners to build a strong foundation to ensure that they have the correct tools to succeed in life.

Le-Amen is committed to ensure that the relationship between the requirements of the DOE are always implemented and followed whilst implementing the values and beliefs of **Le-Amen**.

We believe that every student needs the infrastructure, support and love to be able to examine and realise their own potential. Le-Amen believes that dreams are realized when the relationship between commitment, dedication and a desire to learn collate.

Le-Amen offers an academic foundation of the highest order that has a strong emphasis on confident learners that develop their own identity and leadership strengths. **Le-Amen** ensures that each student is a fully-rounded personality.

Le-Amen prepares students in the best possible way for life. In the Matric year, students are prepared thoroughly for an examination that is a gateway to tertiary education. Progress and practice is monitored through a series of internationally bench-marked assessments. For over twenty two years, Le-Amen students have established a reputation of success in Tertiary Institutions once matriculating through **Le-Amen** with an international recognized matric. Le-Amen learners do not learn by rote, they enter University able to accept challenges, participate effectively, think independently and question critically.

Le-Amen Private School:

Le-Amen Private School has been the evolution and natural progression of Le-Amen Education Centre and has become an integral part for a practical implementation and moderation guide for Le-Amen. Le-Amen Private School and Le-Amen Education Centre supplement each other by feeding of the strengths of administration and assessment versus the practical implementation. The scope of Le-Amen Private School is captivated in the vision of Le-Amen. Le-Amen Private School believes that every child needs to be able to be a child, and when the time comes to be an adult then to be able to be mature adults with their own identity and confidence to deal with life as winners.

The culture of the school is based on the desire to evolve not as a collective but rather the transformation and evolution of one student at a time. We believe that every child needs time..... a time to be, a time to learn, a time to love, a time to belong.....the list goes on.

Le-Amen prepares their students to face life with a zest and zeal to be conquerors.

'Train up a child in the way he should go,
And when he is old he will not depart from it.' Proverbs 22v6

2. Mission Statement:

If I learn my ABCs, can read 600 words per minute, and can write with perfect penmanship, but have not been shown how to communicate with the Designer of all language,

I have not been educated

If I can deliver an eloquent speech and persuade you with my stunning logic, but have not been instructed in God's wisdom,

I have not been educated

If I have read Shakespeare and John Locke and can discuss their writings with keen insight, but have not read the greatest of all books – the Bible – and have no knowledge of its personal importance,

I have not been educated.

If I have memorized addition facts, multiplication tables, and chemical formulas, but have never been disciplined to hide God's Word in my heart.

I have not been educated

If I can explain the law of gravity and Einstein's theory of relativity, but have never been instructed in the unchangeable laws of the One Who orders our universe,

I have not been educated

If I can classify animals by their family, genus and species, and can write a lengthy scientific paper that wins an award, but have not been introduced to the Maker's purpose for all creation,

I have not been educated

If I can recite Gettysburg Address and the Preamble to the Constitution, but have not been informed of the hand of God in the history of our country,

I have not been educated

If I can play the piano, the violin, six other instruments, and can write music that moves men to tears, but have not been taught to listen to the Director of the universe and worship Him,

I have not been educated

If I can run cross-country races, star in basketball and do 100 push-ups without stopping, but have never been shown how to bend my spirit to do God's will,

I have not been educated

If I can identify a Picasso, describe the style of da Vinci, and even paint a portrait that earns an A+, but have not learned that all harmony and beauty comes from relationship with God,

I have not been educated

If I graduate with a perfect 4.0 and am accepted at the best university with a full scholarship, but have not been guided into a career of God's choosing for me,

I have not been educated

If I have become a good citizen, voting at each election and fighting for what is moral and right, but have not been told of the sinfulness of man and his hopelessness without Jesus Christ,

I have not been educated

However, if one day I see the world as God sees it, and come to know Him, whom to know is life eternal, and glorify God by fulfilling his purpose for me,

Then, I have been educated!

Discipline

- Our positive school discipline plan aims to help pupils develop socially and academically. Since it is a small group of different ages, there is less peer pressure. This eliminates a lot of problems. Sometimes just a stern look is enough to let a child know that he/she has overstepped the boundaries. If necessary, the child will stay in during break time and be given lines or any other suitable punishment.
- Bullying: We will not tolerate any bullying at the school. There is however a fine balance between bullying and a child who likes to play victim. We will deal with it carefully and with much discretion.
- We believe that once a problem has been sorted out and the child has apologized, it is forgiven and forgotten. No one then needs to gossip or keep grudges or have an attitude thereafter. If your child thus tells you stories of things that happened at school, please find out whether it has been dealt with and then use your discretion to guide your child to deal with it in the correct manner.
- If your child has a problem with another student, please notify us of it so that it can be dealt with. No parent is allowed to confront another child on the school premises.

If in possession or participate in any of the following, it will be immediate expulsion.

6. Work procedure, Working Station, Teaching

Work Procedure

- Our curriculum is based on the CAPS guidelines required by the Department of Education.

- Tests (prepared & unprepared) will be written in the 1st & 3rd term. An official exam will be written in the 2nd & 4th term.
- Evaluation will be continuous and includes test/exam marks, bookmarks, class work, and overall progress.
- Teaching and learning cater for each learner through planning, assessment and evaluation, so that each learner can achieve their full potential. We provide a stimulating and challenging classroom where appropriate resources are used to meet requirements. We use various teaching methods (classes, group work, individual work, etc.), textbooks and work sheets.

Working station (Grade 4-9)

- Each student has his/her own "Station".
- They are welcome to decorate it to create an adventurous working atmosphere.
- Each student will receive a goal chart on Mondays, indicating all the work to be completed for the week. Pacing themselves, they must complete each day's goals. Any outstanding goals will be given as homework. However, this does not happen easily as we strictly monitor them throughout the day.

Teaching

- As the school system spoils the students by spoon-feeding them, they might find Le-Amen's teaching methods strange in the beginning, however they adapt quickly.
- Our ultimate aim is towards self-study, which will benefit the student's whole study career.
- Classes will be given when a new concept or section is introduced. Thereafter the work sheets/text books in the various subjects are self-explanatory and the student can complete it on his/her own. Individual attention will be given. No time will be wasted, as the student needs to carry on with any of the other subjects whilst waiting to be attended to by a teacher.
- Since it is a small group, individual attention can be given.
- We maintain a high standard. Demarcation and exam timetables will be available well in advance.
- We use our discretion with Life Orientation where sex education and evolution are concerned.
- Bible Education will be part of this subject, although it will be integrated throughout all the subjects. We do not teach religion, but give them the Word, which leads to LIFE.
